RMA Replacements

After November 1, 2017, Finisar reserves the right, at its sole discretion to issue credit for any of the discontinued products listed above returned under RMA. This is provided that Finisar's FMA determines that the module failed due to "non-customer damage" reasons and the module is within warranty.

We apologize in advance for any inconvenience this may cause. This is necessary for Finisar to offer the highest performance products at the lowest possible price. Please do not hesitate to call on your local distributor, rep, or local Finisar sales manager for any additional information you need.
