

Part Change Notice ST and SF Series Plug Connectors: Lubricant Production Process

JAE will modify the production process of a lubricant that is used in the ST and SF Series connectors to comply with new EU REACH requirements. Please see details below.

1. Applied Products:

All applicable connectors are listed below.

Product type	Part name	Scheduled change
ST* Series	ST11S008V4H (ST11S008V4HR2000)	February 2020 (Plan)
	ST12S010VBA (ST12S010VBAR1800)	
	ST12S010VBC (ST12S010VBCR1800)	
	ST12S010VDD (ST12S010VDDR1800)	
	ST19S020VCA (ST19S020VCAR1400)	
	ST19S020VCC (ST19S020VCCR1400)	

Product type	Part name	Schedule change
SF* Series	SF56S006V4A (SF56S006V4AR2000)	February 2020 (Plan)
	SF56S006V4B (SF56S006V4BR2000)	
	SF56K006VBA (SF56K006VBAR2000)	
	SF72S006VBD (SF72S006VBDR2500)	
	SF78S012VBA (SF78S012VBAR1400)	

2. Modification Details:

Regarding the revision for the EU REACH restriction substance list, PFOA and PFOA related substances are now added to the list.

Concentration for PFOA substances will be controlled by adding a filter to restrict the concentration of the substance in the lubricant SANKOL CFD-550ZB.

Before update: PFOA is not controlled

After update: PFOA under 25ppb

*No changes for material composition and performance.

3. Impact by the Modification:

- Partial changes to the equipment used in the production process. No changes for material composition and performance.
- No impact to functional process.
- No change for Drawing/Part Name or Bill of Materials/Environmental Data.

4. Schedule

- New process will take place in February 2020 or later.
- For additional information requests, please contact your JAE account manager.
- Schedule change will vary according to each customers' order and stock situation.

If you have any questions regarding this matter, please contact your JAE account manager.

Thank you for your cooperation.
