Description of change: This letter is to inform you there has been a production status change for the InnoSenT products stated above. The product status listed above has been amended to reflect Not Recommended for New Design (NRND). NRND is a production status classification that indicates a part number is approaching the end of its product life cycle. It is not EOL, rather NRND is the period between Mass Production and EOL. NRND items are still supported by InnoSenT in mass production; however, long term support is not guaranteed nor are these items recommended for new designs.

Recommended components for replacement:

SMR series; SMR-313 (80.00000341), SMR-314 (80.00000342), SMR-333 (80.00000346), SMR-334 (80.00000347) for IPM-series and IPS-series

IVS-282 (80.00000314) for IVS-167
