

# Product Discontinuity Notice

PDN-NO	PDN-Ä21-0215	Date: 31.05.2021
Product description	For the Filter- D-SUB and Filter- HD-SUB connectors with monolithic ceramic planar filter	
Reason for PDN / Technical Description	The raw material of dielectric ceramic with high dielectric constant, which is required to realize needed capacitance value in monolithic planar filters, is not available any more in such quantities to manufacture it in industrial manner. Thus Conec was forced to use other low pass filter technologies (individual capacitors, multilayer planar), which are already in use in custom specific and also standard filter connectors.	
Effective Date	Immediately. Conec had sourced and stocked a quantity for a two year demand, but since the extremely increased market demand first planar filters are already used off and an immediate change is necessary. Please contact your CONEC sales contact for detail information and replacement product.	
Attached Documents	NA	
CONEC Contact	Please contact your Conec sales representative or distributor.	
Effected Products	This applies to all Conec Filter-connectors which were manufactured with a monolithic ceramic planar filter.	
Originator	Joerg Kuehle / Director R&D
