

Product Change Notification

TE Connectivity

Product Change Notification: E-17-016543

PCN Date: 05-DEC-17

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

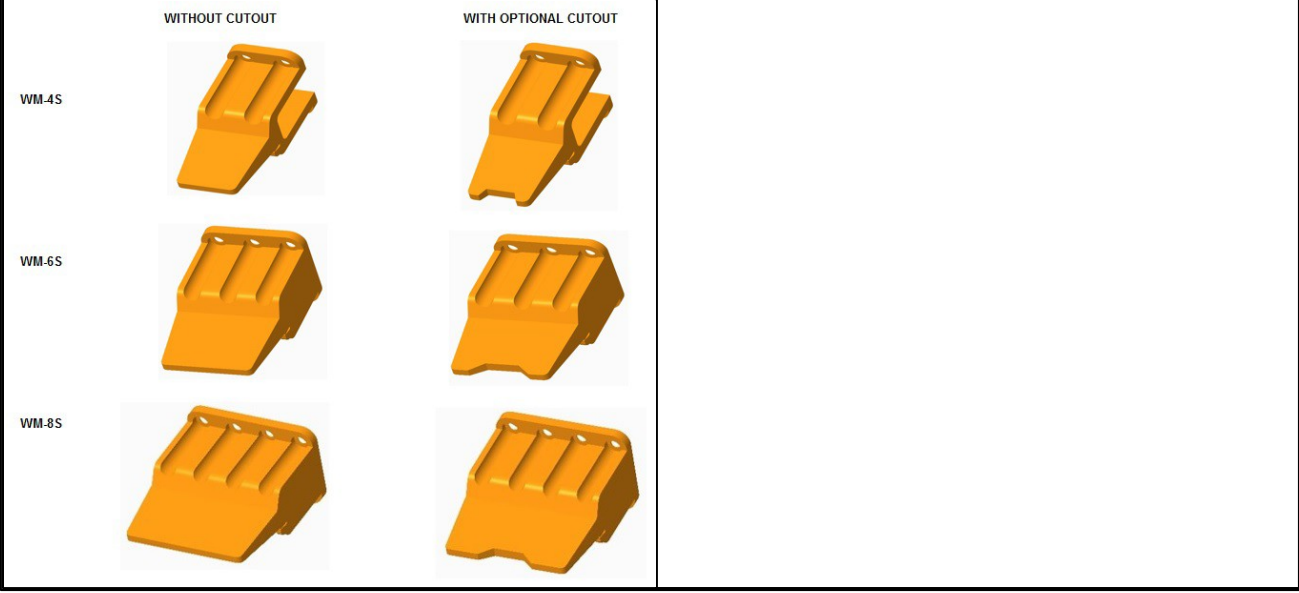

General Product Description:

WM-4S, WM-6S, WM-8S DTM Series 4-way, 6-way, and 8-way Plug Wedge Locks

Description of Changes

An optional cutout feature will be added to the wedge locks in the "blade" area.

WM-XS without and with optional cutout

Reason for Changes:

Product Improvement. Dear Customer, in an effort to continuously improve our products, TE-ICT will be adding new wedge lock molds to add to our production capacity with a cutout feature that is needed to facilitate manufacturability. While there is an impact to the part form, the fit and function of the part is not impacted. This change will give manufacturing the option to use the existing molds or new molds. This product improvement will not impact other areas of wedge lock performance. Shipments of both revisions may be mixed. "Optional Cutout Feature" callout will be added to the product drawings. IMPORTANT: This is a continual improvement so the current and previous revisions of these part can be used interchangeably in the field. These changes are being phased in gradually and previous revision can remain stocked until use.

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	10-JAN-2018
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	01-JAN-2022
