

PRODUCT CHANGE NOTIFICATION

GAS DISCHARGE TUBES

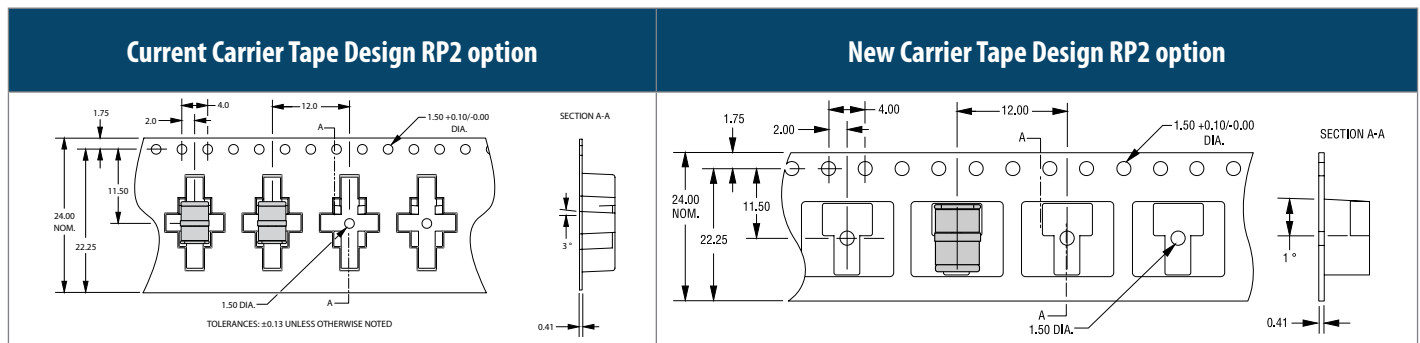

RP2 Carrier Tape Dimension Changes for Select 3-Electrode Miniature Gas Discharge Tube Products

Model 2036 and 2038 Series

Riverside, California – February 25, 2020 – In the spirit of continuous improvement, Bourns is changing the design of the RP2 carrier tape for select Model 2036 and 2038 series 3-Electrode Miniature Gas Discharge Tubes. The carrier tape pocket design is being changed to help prevent parts from moving position during shipping. There is no change to the electrical characteristics of the products. A list of affected part numbers is included below.

These changes have no impact on the form, fit, function, quality or reliability of the affected products. The product marking and label will remain unchanged. The carrier tape dimension changes will affect the fit and form of the packaging as shown.

Affected Part Numbers				
2036-07-SM-RP2LF	2036-15-SM-RP2LF-H	2036-35-SM-RP2LF-H	2036-60-SM-RP2LF	2038-35-SM-RP2LF
2036-09-SM-RP2LF	2036-23-SM-RP2LF	2036-42-SM-RP2LF	2036-60-SM-RP2LF-H	
2036-09-SM-RP2LF-H	2036-23-SM-RP2LF-H	2036-47-SM-RP2LF-H	2038-15-SM-RP2LF	

Implementation dates are as follows:

First shipping date of the new design model: **August 17, 2020**

Last day of manufacturing of the current design model: **July 31, 2020**

First date code for the new model design: **0820**

If you have any questions or need additional information, please feel free to contact [Customer Service/ Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
