Item description

WAGO Visualization Lighting Management provides an optional independent user interface for operating and monitoring WAGO Lighting Management (2759-0204/0261-1000). Whether on a desktop PC, touch panel, tablet or smartphone, the entire lighting system can be operated clearly and conveniently during ongoing operation via a modern HTML 5 web user interface. Through the visualization of operating data, the user is informed at all times about the current operating status of the entire lighting system and can intervene manually if necessary. Simultaneously accessing several lighting management controllers from the visualization is also possible. Depending on the number of controllers to be operated, three different license types are available. The visualization can be easily adapted to individual requirements. In addition to language and color settings, HMI devices, users, rooms and custom profiles in particular can be created and managed. Profiles make it possible to associate an individual user interface with each HMI device or user.

Visualization – S; 1 controller; Item No.: 2759-2101/271-1000
Visualization – M; up to 3 controllers; Item No.: 2759-2102/271-1000
Visualization – L; up to 10 controllers; Item No.: 2759-2103/271-1000

Compatible Controllers/Touch Panels:

- Controller PFC200; 2nd Generation; Item No.: 750-8212

- Touch Panel 600 Advanced Line; PIO3; Alternative: Touch Panel with capacitive touchscreen as basic unit: 762-53xx/8000-0002

Subject to changes. Please also observe the further product documentation!

Data
Notes

Note	The "Lighting Management" Software is a pre-programmed application based on the *e!COCKPIT* Development Environment and can be used for both PFC200 G2 Controllers or Touch Panels 600. To download the application and license to the device, WAGOupload software is required, which can be obtained free of charge from the WAGO homepage. Internet connection may be required for license activation.

Delivery

Delivery type	License certificate by email (software available for download)

Lighting Management Application	2.1.2 2023 Jan 12	zip 126.8 MB		Download

WAGO Lighting Management is a highly sophisticated solution for lighting control in large spaces such as production facilities and warehouses. Using a combination of predefined hardware and user-friendly software, WAGO offers a lighting management system that facilitates the design and commissioning of new lighting systems while providing numerous additional advantages for their operation.

This download always provides you with the latest version of WAGO Lighting Management that we strongly recommend for new installations. When upgrading existing installations that use older versions (V1.x), we recommend that you keep using V1.2. If you have any questions, please contact WAGO Support.
