## TE Connectivity

Product Change Notification: P-18-016346

PCN Date: 14-SEP-18

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

**General Product Description:**

MAG-MATE TERM 27-23 016 TPBR

**Description of Changes**

TE is adjusting packaging quantity according to global standard for PN 62935-1 only. Quantity per reel is changing from 12,000 parts to 12,500 parts and quantity per box is changing from 48,000 parts to 50,000 parts. Remark: This updating is just to Brazil plant. Other plants that produce this part are already working according to global standard and customers that receive products from those other plants already are according to global standard.

**Reason for Changes:**

New specification. Other product dashes keep the current packaging standard with no changes. The same physical packaging permits the small increase of quantity, therefore, there is no changing in the kind of packaging, but only quantity.

**Estimated Dates:**
