Re: End of Life Notice (EOL) for H Series™ COB products: H6 and H9

Ref: BL-EOL-02232018

This is an EOL notice for the Bridgelux H Series product line including H6 and H9 high density COBs. Last time orders for H Series products must be placed before April 30, 2018 with product shipping no later than May 30th, 2018.

Bridgelux is discontinuing the H Series™ product family due to the release of our newest generation of high density COB products: V Series™ HD. The new V Series™ HD product line features a new 5 mm LES product for extra tight beam control as well as a 20% flux and efficacy improvement. Below is a list of H Series EOL part numbers with the new equivalent V Series HD replacement part numbers.
