The TN glass used in the manufacturing of these displays is no longer available. As a result, we cannot continue to produce these displays in their current design.

A last-time-buy option for the TN displays is not available, but there is a new IPS alternative. Please refer to the [3.5 IPS Transition Guide](#) to view the key features of our new IPS display in comparison to the EOL TN displays. The following table lists recommended alternatives from our new IPS product offering.
