

PCN - 11 043

Issue Date: May 13 2011

Product Name:	Millipacs			
Product Manager:	Jeff Liu			
Subject:	Product Change Notification			
Distribution:	NSN, etc.			
Type of Change:	Materials Change			
Change Description:	Telcordia GR1217-Core level Central Office (CO) has become specification of reference for performance for the applications. FCI included GXT™ (Gold over Palladium Nickel alloy over Nickel) to its product specifications 5 years ago. This important move gives the option to supply either Gold or GXT while maintaining performance. Strengthening competitive position, FCI will now switch to GXT option as preferred plating for Millipacs.			
Reason for Change:	During first decennium the market changed to specification at performance level. Following this trend, FCI converted Millipacs specifications from plating thickness based to performance based.			
Affected Parts:	As the attached			
Effective Date of Change:	August	13	2011	
Last Time Buy Date:	August	13	2011	
Last Disty Return Date:	N/A	N/A	N/A	
Datasheet Attached?	No			
Qual/Test Data Attached?	No			
Samples Availability Date:	N/A	N/A	N/A	
Available Alternatives?	No <i>Customer developed alternative source</i>
