

Product Discontinuation Notice:

PDN.PG33.10.10.2022

10.10.2022

Effective Date:	Immediately
Last Time Buy Date:	Dec 20, 2022
Last Eligible Ship Date:	Mar 25, 2023
Discontinuation Details:	<p>While we continue to focus on a number of our Thermal Management Solutions, regrettably we are discontinuing some of the Pyrolytic Graphite Sheet (PGS) and related, including thinner versions of plain (bare) PGS under 70um In thickness. Semi Sealing Material product with Elastomer is also being discontinued.</p> <p>Our lineup will be aimed more at the Z direction thermal transfer (perpendicular to the plane of the sheet), rather than X-Y, heat spreading (In the plane of the sheet). Over time the heat spreader materials have become commoditized.</p> <p>NASBIS insulation sheets are also discontinued</p> <p>70um and 100um plain (bare) PGS will remain available. All laminated / electrically insulated versions, will no longer to be available. There are a number of third party Converters that can support laminations.</p> <p>Graphite Pad and Graphite Thermal Interface Materials will continue to be available.</p>

Suggested Replacement:	None other than considering use of plain 70um or 100um and having lamination done via 3rd party Converter.
Affected Part Numbers:	<p>EYGA□□□□□□□□</p> <p>EYGS□□□□□□□□</p> <p>EYGS□□□□□□07 (70um) EYGS□□□□□□10 (100um) remain available.</p> <p>EYGE</p> <p>NASBIS (insulation sheet)</p> <p>EYGY series (Lamination type) EYGY□□□□□□□□</p> <p>EYGN series (with Graphite type) EYGN□□□□□□□□</p> <p>Custom P/N's, not included in the catalog data sheet, are also discontinued as outlined above. A listing of affected P/N's is supplied with this notification.</p>
