Dear < Customer FSE Last Name>,

Subject: Announcing Product Obsolescence of Limit Switches with K Designation

This is to inform you that effective May 1, 2015, Honeywell Sensing and Control (S&C) has made the following Limit Switches obsolete from its portfolio. The K designation was originally used to add a Fluorocarbon diaphragm seal to the product, increasing sealing capability. The Fluorocarbon diaphragm seal is now standard among the product line making the K designation unnecessary.
