

## 474A++ DIGITAL DE-SOLDERING STATION

### Product Description

This thermostatically controlled de-soldering station provides best in class performance with an impressive 150W heating system. The most recent version features a 12-volt DC pump for even more powerful suction!

### Key Features

- Bench-Top System with a Lightweight Handle Design
- Digital Control and Display of Temperature
- Digital Temperature Calibration
- 1-60 Minute Idle-to-Auto-Sleep Mode
- Upgraded Pump with Up to 80 KPA Suction Power

### Package Contents

- 474A++ Main Station
- B1002A De-Soldering Gun with 1.8mm Tip
- De-Soldering Gun Holder
- De-Soldering Gun Maintenance Kit
- Power Cord
- Instruction Manual

---

## Specifications

### Main Unit

---

#### Input Voltage

110V

#### Temperature Scale

Digital °C

#### Station Dimensions

9.8 (L) x 7.4 (W) x 5" (H) (250 x 188 x 126mm)

#### Station Weight

11.7 Lbs (5.3 Kg)

### De-Soldering Gun

---

#### Power Consumption

80W

#### Temperature Range

200 – 480°C (392 – 896°F)

#### Output Voltage

24V

#### Air Suction Flow

15 L / min (Max)

#### Heating Element

AOC005A
