Substances in the Products

1. Products: 10956-1 (Laminating film)
2. As of March 24, 2011, we have confirmed that we shall not intentionally use chemical substances listed below as raw materials in the process of manufacturing and processing of the Products or that, if threshold levels are specified below, we shall not use the same in excess of such threshold levels as raw materials in the process of manufacturing and processing of the Products.

	Substances	threshold (ppm)
1	Lead and its compounds	1000
2	Mercury and its compounds	1000
3	Cadmium and its compounds	75
4	Hexavalent chromium compounds	1000
5	Specified brominated flame-retardants (PBBs)	1000
6	Specified brominated flame-retardants (PBDEs)	1000

3. Your company shall confirm your intended application utilizing the Products in advance and then determine from time to time whether or not the Products or your products containing the Products comply with any and all applicable laws, regulations, orders and guidance in a country where they are distributed and sold ("Applicable Laws").
4. In the event that the Products do not conform to requirements under the Applicable Laws as a result of the occurrence of any fact that differs the contents of this letter, your company's sole and exclusive remedy shall be the replacement of such non-conforming Products with the new Products conforming to the contents of this letter. Except as expressly provided herein, we shall be exempted from any and all responsibilities for the Products non-conforming to the contents of this letter.
