

Adafruit #ElectronicHalloween Halloween Sticker Sheet Set 2

PRODUCT ID: 3914

The season of spooky is nigh and here at the Adafruit factory we love Halloween! We have soo many guides in the Adafruit Learn System whether you want to make a HalloWing spirit board, a glowing smokey skull, or a NeoPixel masquerade mask...

Speaking of wearables... We couldn't let us humans have all the fun! Even our Circuit Playground friends have costumes. Peep this Halloween Sticker Sheet featuring Blinka, Minerva, and Crickit in various adorable Halloweenie getups.

These gorgeous die-cut stickers are vinyl, glossy, and made to last a lifetime.

Check out the other sticker set we have, maybe pick up both? These can go nicely onto our halloween card set to make adorable scenarios, and because the stickers are vinyl you can remove and re-place them.

TECHNICAL DETAILS

The full sheet is 223 x 160mm / 8.7 x 6.3"
