PRODUCT RECALL NOTIFICATION

PRN: PRN135243

Date: September 06, 2013

Subject: PRN - Cypress Product Recall Notification for FM24VN10-G / FM25VN10-G products

MRB #: XQC42598A

To:

Dear Cypress Customer:

Cypress is recalling lots manufactured in 2012 for two specific FRAM marketing part numbers: FM24VN10-G and FM25VN10-G. This recall is only for products in the distributor's inventory. Please do not send this notification to the end customers.

Cypress is conducting the recall due to incorrect programming of the unique serialization of specific lots. The failure occurs at time zero by providing a non-unique serialization number. Parts that pass the customer's testing do not have this issue. Parts returned to Cypress will be re-worked and re-programmed and will be fully functional. The problem has been fully contained and Cypress has implemented corrective actions to prevent recurrence.

The completion date for this recall is 30 days from receipt of this notification. Please return the parts through our Return Material Authorization (RMA) system by this date, referencing this PRN number. You can contact your local sales representative for more information concerning this recall.

Your continued interest in Cypress is greatly appreciated.

Sabbas Daniel

Gary Saunders

EVP of Quality

EVP of Sales and Marketing

Part Details:

Affected Part Number	So Number	LOT Number	Ship Quantity	Ship Date	Ship To	Country
----------------------	-----------	------------	---------------	-----------	---------	---------
