

Product Change Notification

10512887

To: All active customers
From: Christian Slinkman
Cathy Maly
Niki Taylor
Date: August 1, 2011

Part Numbers Affected:

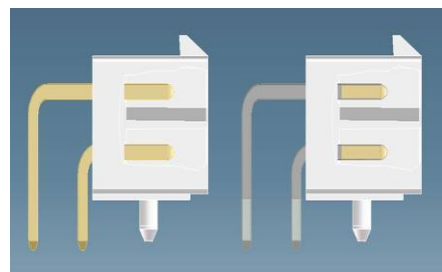

See Next Page

Product Description:

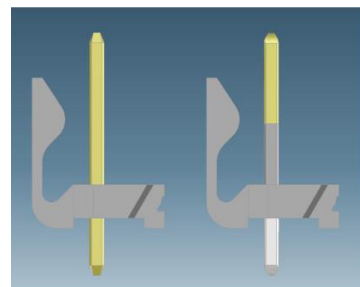

Changing selected Mini-Fit® and KK® Product that were Overall Gold Plated Terminals to Select Gold, or Gold only in the contact area, and Matte Tin in solder tail area (changing solder tails from Overall Gold Plating to Matte Tin Plating)

Product Image:

Mini-Fit®

KK®

Overall Gold plating removed from solder tail area only and replaced with Matte Tin plating
Contact area to have same amount of Gold Plating; no changes to the contact area

Part numbers to remain the same; this will be a running change

Change Effective Date:

Nov 1st, 2011

For further information please contact your local Molex sales representative.

GCN Change special note:

This change will remove gold plating from the solder tail area but plating will remain the same in the contact area. This will be a running change, so the part numbers will remain the same and parts shipped after Nov 1st, 2011 will transition to the select gold plating in the contact area and matte tin in the tail area. All product shipping through Oct. 31st, 2011 will continue to have overall gold on the header pin. Beginning November 1st, 2011, all parts on the attached list will transition to gold plating in the contact area and matte tin in the solder tail area.
