

Made in the United States of America

Description

Desco's ESD Workstation Covers are made from a texturized polyester and a minimum of 9% carbon mono-filament with bound edges. They provide continuous and consistent charge dissipation throughout the lifetime of the cover. The ESD Workstation Covers are designed to protect products at the workstation from ESD, dust and other contaminants. A 10mm (3/8 inch) socket allows the cover to be grounded to the workstation's common point ground. The ESD protective symbol, Desco logo, Flag and "ESD Workstation Cover" are imprinted in the center.

Electrical Properties

Surface Resistance

Rtt: $1 \times 10^5 < 1 \times 10^7$ ohms, per ANSI/ESD STM2.1 and ESD TR53 (garment section)

Physical Properties

Color

White

Fabric Weight*

2.2 oz per square yard

Fabric Content

Texturized polyester and a minimum of 9% carbon mono-filament nylon.

Chemical Properties

Glass Transition Temp

250°F

Flash Point

1040°F

Item	Dimensions (W x L)
41400	18" x 24"
41401	36" x 48"
41402	48" x 48"

*Fabric lots vary slightly in color and weight.

Unless otherwise noted, tolerance $\pm 10\%$
